While it is conceded that congress will find time to do little more at the approaching short session than to dispose of the thirteen appropriation bills necessary to finance government during the next fiscal year, Senator Capper and other Republican senators declare the agricultural situation is so critical congress will simply have to pass some emergency legislation to enable the farmers to cope with it.

### SERIOUS SITUATIONS STILL UNSOLVED TWO YEARS AFTER SIGNING OF ARMISTICE.

Two weeks' work by the league of Nations in its present session, makes it apparent that the world is not yet ready to attempt to solve its most serious problems.

The same knotty questions which perplexed the peace conference are now perplexing the league. Expressing the belief that the war was too recent a thing to permit cool, calm consideration of many problems, the framers of the peace treaty passed these questions on to the League of Nations for solution. The present assembly of that body is now passing them on to some future assembly. With the result that two years after the signing of the armistice, situations which statesmen regard as holding the most serious potentialities in Europe are still being dodged.

The Russian situation was recognized as one of the most menacing on the continent throughout the peace conference. It is still admitted that without peace in Russia a stabilized Europe is impossible. The peace conference, however, successfully evaded the Russian problem, and the present league of nations assembly will not even permit discussion of Russia.

Disarmament was discussed in the peace conference, but left for action by the league, and the league is now passing it for future consideration.

Armenia, the Polish boundary problem, the question of admitting Germany to the league, and other subjects now uppermost, were live questions of debate in the peace conference, and tertained a number of friends at have again come to the front in the league. Some members of the committee, it has been learned, have been furnished in confidence with a summary of the estimates to come forward from the secretary of the treasury. They had expected that these estimates would at least show some studied Strickle, Monday a son, "Elmer ton spent the week end with Mr. effort in view of general conditions and the absolute necessity for reduction of expenditures and effective economies. In this, they were disappointed.

"We were absolutely amazed," said a member of the committee, who has seen a summary of the estimates. "There is absolutely no evidence of any attempt on the part of the heads of government departments to cut down expenditures. It is astounding to us that in the face of the nation wide agitation for curtailment of government costs, for reduction in living costs and reduction in taxation, there has been no apparent effort made by government officials to economize.

"In not one department, so far as we have been able to see, has there been any planning for reduction of stupendous government drain upon the finances of the nation. No department has made any provision for reduction in working forces. In Washington there are 92,000 government employes, whereas there Aere 37,000 before the United States entered the war in 1917. And now instead of reducing this unnecessary force, some department heads are actually including in their estimates provisions for increases in their working forces. It is sufficient to say that they are going to get some jolts when the appropriations committees get through with their estimates."

### A PRETTY GOOD "SOCKLESS JERRY" SIMPSON STORY.

The fact that Miss Alice M, Robertson who will be the second woman ever elected to congress, has announced that she has never worn anything but cotton stockings and does not intend to indulge herself in the luxury of silk hosiery, bring to mind that it was just thirty years ago that a man from Kansas was elected to serve in the house of representatives because he made the issue in his campaign that he was too poor to wear socks.

That individual was Jerry Simpson of Medicine Lodge, who was elected on the People's party ticket. He was dubbed "Sock-

"I will," quickly answered the Medicine Lodge man, "if you will then be kind enough to lift up your dress so that all of us here in the corridor-men and women both-can see what kind of stockings, if any, you as the friend of working women can afford to wear in times like these."

Mrs. Smith was taken so by surprise that she blushed greatly and instantly took to her heels, much to the amusement of the bystanders. HUMAN NATURE.

The climate here is luscious, very, and even winter days are warm; but my old heart is so contrary I sometimes long to see a storm. Where I abide the weather wizard provides the smoothest goods he owns; and yet I long to hear a blizzard whoop past the house, with maudlin tones. The tourists come, a cheerful legion, and visit me a while and say, "This is the finest, grandest region—here every day's a perfect day!" They dance around, the joyous friskers, ecstatic over things they see; and I remark. "You bet your whiskers, this country's good enough for me." But when the tourists leave my shanty, in genial pairs or blocks of five, I say to Jane, my spinster auntie, "I wish a cyclone would arrive! Oh, for a good old Kansas twister, destroying barns, uprooting trees! Oh, for a hot wind that would blister, oh, for a cold wind that would freeze!" And were I back where winds are blowing, and winter's white with snow and rime, some grievous fits I would be throwing, denouncing such a beastly clime. There is no bliss for any mortal until he quits this vale of woe, and enters through the shining portal, the land where all the righteous go. And that bright land-perhaps he'll scan it, and mutter to his saintly guide, "This place looks cheap beside the planet where I grew up and loved and died."

Doctor said she couldn't get well in Illinois, but she did.

in Illinois, but she did.

"I had a very bad cough for 2 years, all the time, day and night. Could sleep but little. I tried everything but got no relief. Finally my doctor said he could do no more for me, that I had better go to Denver as I couldn't live in Illinois. Then I tried Milks Emulsion. From the very first, it helped me. By the time I had taken 15 bottles, my cough left me entirely. I have gained in strength and flesh and am now in perfect health."—Mrs. Alice M. Huntley, 182 No. Pearl St., Galesburg, Ill.

Build up your system and give it a chance to fight off disease. Milks Emulsion costs nothing to try and it has done the work for thousands of others.

Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whom sickness has weakened, and is a powerful aid in resisting and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. Truly wonderful for weak, sickly children.

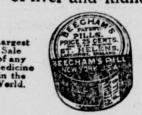

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Atlantic City, Nov. 30-Bishop Joseph Berry declared that the house of bishops of the Methodist Episcopal church outlined by the Lord's Day Alliance for a strict enforcement of Sunday "blue laws."

Approximately 200,000 new communicants were e nrolled in the Methodist Episcopal church this year, Bishop Berry said. He added that an effort would be made to enroll 300,000

The rural church, however, he said, is weak and the board of bishops favors consolidation of small and scattered congresations to strengthen churches. He attributed dwindling rural congregations to the "lure of the cities," and not to a weakening of interest in religion.

Bishop Berry said that more than \$15,000.000 had been raised for home and foreign missions and that the fund would make possible assistance to the helpless and friendless in wardevastated sections of Europe.

# Women of Middle Age

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change in her life without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, smothering spells, fainting spells, nervous troubles and irregularities are symptoms that should have prompt attention. These two letters prove what a successful remedy Lydia E. Pinkham's Vegetable Compound is for women at this time of life.

These Two Women Helped During Change of Life.

Taunton, Mass.—"I could not eat or sleep for six months, had fainting spells and could not walk without help for three months, caused by female trouble. My cousin, who was a doctor, told me to take Lydia E. Pinkham's Vegetable Compound and it helped me greatly. Then during the Change of Life I used the same remedy. I am seventy years old now and am able to do my own housework and walk one mile to church every Sunday morning and evening. I am recommending the Vegetable Compound to my friends having the same troubles as I had. Your remedy is the best on earth. I cannot find words to express my gratitude for it."—Mrs. Susan C. Statles, 157 B School St., Taunton, Mass.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic troubles and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better. I will tell any one who writes to me the good it has done me."—Mrs. Margaret Danz, 743 N. 25th St., Philadelphia, Pa.
